Projects

Spring 2023 - Rate My Club
Designed and built a platform where all UCLA students can browse, rate and join various clubs and organizations using React.js and mongoDB.

Current - FitIn App
I am currently working on a full stack fashion based app designed to track and display fashion trends within college campuses, using React native and Node.

Nitya Simhadri

Summary

Recent Computer Science graduate with a passion for problem-solving, building applications and eager to learn and tackle new challenges. Energetic individual with strong communication and critical thinking skills.

Experiences

Optum - Software Engineer Intern
Irvine, CA
06/2023- 08/2023

- Currently building a Secure Email Portal in order to safely and effectively transfer Protected Health Information between member clients and UnitedHealth Care services.
- Using React.js to build the front-end application along with Node.js and express to establish the correct API functionalities on the server side.

Lion Hills LLC - Software Engineer Intern
Edina, MN
09/2019- Current

- Reviewed and edited IT documents and proposals for a Member Health Risk Company in order to help companies reduce financial risk and accelerate value-based care programs.
- Work under UI developers to create and maintain a member risk monitoring platform personalized to each user.

UnitedHealth Group - Product Management Intern
Eden Prairie, MN
06/2022- 08/2022

- Found strategies to identify and reduce over 85 million singleton and junk records within databases
- Shadowed data engineers and performed SQL queries to analyze large amounts of data

NextBest - Brand Ambassador
Westwood, CA
10/2020- 10/2021

- Increased brand awareness through event marketing, demonstrations, sales and brand promotion.
- Gained valuable experience in advertising through social media and learned how to market and promote products within the fashion industry.

Mayo Clinic - Summer Intern Researcher
Rochester, MN
06/2018- 08/2018

- Researched Alcohol Disorders and its effects on the brain. Developed my research skills and learned about brain functions and components.
